# BULMOR Compact Sideloaders Qc 30 - 40

## Excellent allround vision

- Elevated operator position
- View in main travel direction
- Clear vision in all directions

## Comfortable operation

- Large wheels 27 x 10-12
- Air or solid wheels
- Pendeling system absorbs shocks and protects operator and load

## Extremely agile

- Steering angle 70°
- Short overall length, L: 4.150 mm

## Short front and back overhang

- Easy travel over ramps
- Easy transport
- The large ground clearance and the elevated engine position allow operation on uneven ground.

## Low noise

- Engine placed away from the driver
- All components enclosed
- Large radiator - low noise

## Selection of cabins

- Half cabin – without door
- Full cabin – with door
- Heating and ventilation

## Full mast program

- All lift heights up to 8 m
- Duplex
- Triplex Full free lift

## Robust and reliable

- Engine and all components are located below a sturdy steel cover
- High quality components of known manufacturers like Perkins, Rexroth, and Poclain.
